PROFESSIONAL SUMMARY

Full Stack Developer with **8+ years of experience** building scalable web applications, enterprise systems, and cloud infrastructure across Japan, Singapore, and Myanmar.

Specialized in backend development using **PHP, Laravel, Python, and Spring Boot**, with frontend expertise in **React.js and Next.js**. Strong experience in **AWS cloud services, Docker, Kubernetes, Terraform, CI/CD automation, and cloud-native architecture**.

Skilled in RESTful API development, database optimization, deployment automation, and system performance improvement. Experienced working in Agile/Scrum environments with multinational teams and delivering maintainable, scalable, and high-performance solutions.

TECHNICAL SKILLS

Languages

PHP • Python • JavaScript • TypeScript • HTML5 • CSS3 • JSON

Frontend

React.js • Next.js • Bootstrap • jQuery • AJAX

Backend

Laravel • CodeIgniter • CakePHP • Spring Boot • Smarty

Cloud & DevOps

AWS • Google Cloud Platform (GCP) • Microsoft Azure • Docker • Kubernetes • Helm • Terraform • AWS CloudFormation • CI/CD Pipelines

Databases

MySQL • PostgreSQL • SQL Server • Oracle • MongoDB

Tools & Platforms

Git • GitHub • Linux • VS Code • Postman • Backlog • SourceTree • XAMPP

Methodologies

Agile • Scrum

Core Competencies

Full Stack Development • RESTful APIs • Cloud Infrastructure • CI/CD Automation • Cloud-Native Engineering
• System Architecture • Database Design • Debugging • Cross-functional Collaboration

PROFESSIONAL EXPERIENCE

System Engineer

Japan

Nov 2022 – Present

Key Responsibilities

- Developed enterprise web applications using Laravel, PHP, and Python
- Built scalable frontend applications using React.js and Next.js
- Designed and maintained RESTful APIs and backend services
- Managed AWS infrastructure including S3, CloudWatch, and Secrets Manager
- Implemented CI/CD pipelines and containerized deployments using Docker and Kubernetes
- Participated in Agile/Scrum development and cross-functional collaboration
- Performed testing, debugging, maintenance, and production support

Key Achievements

- Improved application maintainability through modular architecture and clean coding practices
 - Supported cloud migration initiatives and deployment automation
 - Enhanced system stability and operational performance
-

PROJECT EXPERIENCE

DMO Cloud System — Japan

2024

Cloud-based API and batch processing system integrated with AWS services.

Responsibilities

- Developed APIs and backend services using Python
- Implemented batch processing systems
- Integrated AWS services including S3 and CloudWatch
- Supported maintenance and operational improvements

Technologies

Python • React.js • Next.js • AWS • CloudWatch • S3

Human Resources Management System — Japan

2022

Enterprise employee and contract management platform.

Responsibilities

- Developed frontend and backend functionalities
- Designed and optimized database structures
- Conducted testing and system integration

Technologies

Java • Spring Boot • PostgreSQL • Azure Cloud Storage

Job Change Support System — Japan

2022 – 2023

Recruitment and career support platform for job applications and resume management.

Responsibilities

- Backend development and database design
- Frontend implementation and UI maintenance
- Testing and ongoing system support

Technologies

Laravel • PHP • MySQL • Bootstrap 5 • JavaScript • Git

Restaurant Reservation Management System — Japan

2019 – 2021

Online reservation and payment management platform for restaurants.

Responsibilities

- Developed frontend and backend functionalities
- Optimized database performance
- Performed deployment and testing activities

Technologies

Laravel • PHP • MySQL • Linux • JavaScript

Web Management Platform — Singapore

2017 – 2018

Dynamic website management platform for sports club organizations with API integrations.

Responsibilities

- Developed web applications and integrated APIs
- Conducted maintenance, testing, and feature enhancements

Technologies

Laravel • PHP • AJAX • Bootstrap • MySQL

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - Aviatrix Certified Engineer
 - Google Cloud Platform Business Professional Accreditation
 - Scrum Foundation Professional Certificate
 - Cyber Foundation Professional Certificate
 - ICSI CyberSecurity Essentials
 - ISO 9001 Quality Management Skillfront Systems Associate™
-

LANGUAGES

- English — Conversational
 - Japanese — Conversational (JLPT N3)
-

ADDITIONAL INFORMATION

- Available for international opportunities
- Experience working with multinational teams
- Strong adaptability and continuous learning mindset
- Interested in cloud-native systems and scalable platform engineering
